Venu: Thiruvalluvar Arrangam	Time: 10:40 am
In association with the IQAC, Soft skills development unit of the college inaugurated various upcoming events of the academic year with the theme - 'Soft skill development training for the learners of higher education and a guidance for the future' on 07.07.2023.	
Prayer: Tamilthai vazhthu	
Welcome Address: Dr.A. Bhommi, Head, Department of Tamil.	
Presidential address: Dr. D. Rajendran - Prinicpal/ IQAC Chairperson	
Introduction of the guest Dr. Somavalliappan: Dr. K. Gokulakrishnan, Assistant Professor of Chemistry/ Soft skill development coordinator.	
Dr. Somavalliappan, in his inagural session expressed his happiness of being present in the campus infront of a huge young and energetic student minds of the college; he commenced his talk stating the importance of strength and courage for every human being. He said that if 'one' is ready to learn, teacher would come from anywhere/ everywhere. His subsequent delivery of information included the following:	
He informed that a student Mr. Fedrick known to him spoke in English with a lot of grammatical mistake as he didn't know the English language well; however, he spoke confidently and later developed his language hugely.	
By citing a story he explained how one thinks that he/ she is not talented though no one thinks that,one is not talented. No one neither thinks nor doubts abouts anybody's talent / fedility. [two mischieves children were taken to a saint by their mother; one child ran back home without mother's knowledge while the other was presented before the saint. The saintly man inquired the child as to inform the 'whereabouts' of God; listening this, the second child also helter-skelter came back home; when asked for the the reason, he said that the saint inquired 'where the God is???' doubting that I have stolen the God, so, I ran and came back - is the story cited; here, saint didn't doubt the child but he thinks that way and responds accordingly]	
Mr. Somavalliappan highlighted that 'Life battles don't go to a strong or a faster man; it goes to other people; the man who wins thinks that he can'; so, give-up that I can't or I am not able to etc.,	
Every journey needs a plan and hence a plan/ clarity is always required	
When there's a target/ goal, one can achieve; Mr. Somavalliappan cited Mr. Arnold as an example, the popular actor of the film 'Terminator'; informed that within 4 years Mr. Arnold became a best body builder, most celebrated actor, then the Governer of California, USA.	

He also insisted that one learns until one understands. When a to be understood; all successful people didn't win at first; don't be fearful to be defeated; He informed that the one popularly known as 'Tamil Thatha' actually failed in English but he became 'Tamil Thatha' out of his work.

He said that one should go to stage and speak fearlessly; should not worry that one is not able to perform.

He said about 'Talkers' forum' where everyone can talk on Wednesday; he shared an incident where a naughty fellow- classmate suddenly named another one of the class, the named person had to go and talk though he was not good in English but, the incident changed his life and became a popular speaker. Mr. Somavalliappan underscored that everyone should cross the bridge of fear; he said that 'fail early'; 'fail often' and don't worry. One can improve.

The speaker also spoke about the importance of observation; By observing Mr. Sachin Tendulkar, cricketer's games, Mr. Sachin Siva became the captain of cricket for physically challenged team; Mr. X who became a popular radio anchor by observation; Mr. Somavalliappan also said that 'Everything can be learnt out of observation'.

Commitment to be taken as an example; if you are to be successful, be committed.

He insisted that we should say 'No' to mistakes in the very first time itself; if not, and commit the mistake, then, it could become a habit; would impact life negatively.

Mr. Somavalliappan responded with examples for a few queries raised by the students participants.

At the end of the session, Dr. S. Ramu, Head, Department of Zoology proposed vote of thanks and the event concluded with the 'national anthem'.
